MERCHANTS AND SHIPPERS AGREE**Controversy Over Representation and Wharf Tax Smoothed Away.**

Almost without discussion, the Merchants' Association passed a resolution yesterday afternoon that is designed to smooth over existing differences between that body and the shippers' wharf committee over the wharf tax. As forecast by the Bulletin, the resolution presented by W. H. McInerney proved a solution, temporarily at least, of the mutual misunderstandings, and the wharf tax will not be discontinued on July 1.

Mr. McInerney presented his resolution, which is as follows:

"Resolved, That proposal No. 2 of the shippers' wharf committee as conveyed in its letter of May 25, 1911, relative to the matter of reorganization and an invitation to the Merchants' Association of a representation of three members in its body is acceptable to this association, it being understood that the acceptance of such a proposition does not involve any conditions whatsoever attendant upon such representation other than the assurance on the part of this association of its approval and desire to continue the so-called tonnage tax as at present being levied indefinitely, and its approval that the proceeds accumulated from time to time from such tax shall be devoted mainly to the purpose of protecting the shipping and commercial interests of this port."

All Correspondence Aside.

He prefaced this with a brief talk, in which he stated that at the instance of members of both bodies he had endeavored to ascertain the differences between them.

"In presenting this resolution, I am setting aside all correspondence that

has been passed between this body and the shippers' committee," he said, "and am trying to get at the basis of the matter."

The merchants, many of whom knew the action that was proposed, had no objections to offer and, on the contrary, were glad to see a way out of an unpleasant situation, and the resolution was unanimously adopted.

James Wakefield then offered a motion authorizing the president of the association to name at his leisure three members of the association to serve on the shippers' wharf committee. The motion was passed, and will be carried into effect when the shippers assent to the terms of the resolution.

Mr. McInerney stated that his resolution as passed was acceptable to both sides, and the merchants feel that no more controversy will arise.

Reply Is Read.

There was read before the association the reply of the shippers last week to the Merchants' Association when the

ORDERS PAPER TOWELS FOR SCHOOL PUPILS

TOPEKA, May 6.—Individual paper towels for the use of every Kansas school pupil will be installed before the next school year begins. Success has attended all the experimental trials.

The State Board of Health abolished the common drinking cup two years ago and there has not been a single epidemic of diphtheria in the State since and very few isolated cases. The Board also prohibited the use of the common drinking cup in railroad

trains and stations, and April 1 the common drinking cups were abolished in all hotels. The next move will be on hotels.

It is believed that the paper towel will not be much more expensive than the roller towel laundry bills. The towels are 10 inches wide and 18 inches long. They are heavy, absorbent tissue paper. One will dry the face and hands easily. A set of fixtures and a roll of 1,000 towels cost from \$2 to \$3 and extra rolls cost 50 cents for each 1,000 towels. After use the towels are to be burned.

latter formally requested representation without any proviso. The reply, in the light of events that have followed, is now beside the point, but its exact terms had not been made public until yesterday. It was from T. H. Petrie to Secretary M. Brash, and is as follows:

"Dear Sir: I have now to own receipt of your communication of the 19th inst., and in reply thereto would state that this committee, after careful consideration, does not see its way clear to modify its former proposed arrangements for a reorganization of the shippers' wharf committee, as submitted to the special committee conferring with it on behalf of the Merchants' Association, on the terms indicated in your letter of May 19, 1911, and consequently can not accede to the request as embodied in said letter, and that, adhering to the alternatives already suggested to your association through its special committee, this committee is prepared either:

"First—To recommend to the shipping agents constituting this committee to continue to collect the wharfage tax as at present, this body furnishing committees of the Merchants' Association and Honolulu Chamber of Commerce with copies of its quarterly financial statements; or,

"Second—To receive into this committee a representation from the Merchants' Association on the terms of our letter of May 23, 1911, to you, and, failing an intimation from the Merchants' Association by June 15 next, that one of these alternatives is acceptable, this body will recommend to the shipping agents constituting its membership that they cease from July 1 next to collect the wharfage tax on account of any vessels coming to their consignment."

The merchants regard the resolution as really a victory for them, inasmuch as it does not pledge them definitely to a continuation of the tax for two years more and yet will give the representation that has been the bone of contention.

LONDON, ENGLAND, May 4.—Operations at Jerusalem of the Anglo-American syndicate of excavators threaten to cause an interesting diplomatic affair. According to messages from Constantinople the Turkish government takes a serious view of the matter and has sent high officials to Jerusalem to investigate the charge that the foreigners despoiled the mosque of Omar and discovered and carried away sacred relics hidden from the Romans when the city was sacked by Titus in A. D. 70.

There is no doubt that the promoters of the enterprise hoped to discover the ark of the covenant and the seven branched candlestick, but a Constantinople dispatch of today says it is believed that the explorers found Solomon's crown, his sword and his ring, and an ancient manuscript of the bible.
